

Light Wire Pliers

Jarabak Plier

Long tapered design with fine detail work on serrated tips allows for intricate bends and utility work.
Tip sizes are .028" for round and half moon.

Wire Range:
.012" - .020" Round
.022" x .028" Rectangular

Optical Plier

Concave/convex beak design allows you to easily bend and adjust many sizes of archwires and loops.

Wire Range:
.012" - .032" Round
.022" x .028" Rectangular

Light Wire Plier- with grooves

Precision tapered tips allow intricate detail work on archwires. Tip sizes are both .025".
Wire Range:
.012" - .020" Round
.016" x .022" Rectangular

Bird Beak Pliers

Standard Bird Beak

The standard for orthodontic heavy wire bending. Made with fine detail and precise tip sizes. Tip sizes are .035" round and square.

Wire Range:
.020" - .032" Round
.022" x .028" Rectangular

Extra Long Bird Beak

Extra long, narrow beaks for precise bends. Also doubles as a utility plier for hard to reach areas.
Tip sizes are .030" round and square.

Wire Range:
.014" - .020" Round
.022" x .028" Rectangular
