

UTILITY PLIERS

How Utility Plier - Small Tip

Matching serrated pads assure a firm positive grip. Rounded tips for patient comfort and safety. 2.5 mm tips.

Wire Range:

.012" - .028" Round

.022" x .028" Rectangular

How Utility Plier - Standard Tip

This multi-purpose plier has 3.5 mm tips with cross cut serrations for superior grip. Inserted tips with non-contacting bowed jaws won't pinch the patient's lip.

Wire Range:

.012" - .028" Round

.022" x .028" Rectangular

Standard Tip Weingart Plier

Fully serrated cross-cut beaks at the most convenient working angle. Also features bowed jaws that won't pinch the patient's lip.

Wire Range:

.012" - .028" Round

.022" x .028" Rectangular

SPECIALTY PLIERS

3-Prong Plier - Non-Inserted

Standard sized plier with precision fine tips produces superior clasps and intra-oral loops.

Wire Range:

.014" - .030" Round

.022" x .028" Rectangular

Step Plier

Automatically forms bayonet-style bend, up or down, in or out, without disengaging the archwire. Please specify 1/2 mm, 3/4 mm or 1 mm.

Wire Range:

.014" - .020" Round

.022" x .028" Rectangular

Stop Plier

Designed to place a 1 mm stop in the archwire with a single squeeze. The stop plier slightly over bends to provide a flat horizontal plane after springback.

Wire Range:

.012" - .020" Round

.021" x .025" Rectangular

SPECIALTY PLIERS

Arch Bending Plier- Tweed

Forms offsets and 90° bends on all types of archwires. Thin jaws are parallel at .020" opening

Wire Range:
.022" x .028" Rectangular

Tweed Loop Forming Plier

Excellent plier for making precise, consistent omega loops in round and rectangular wires. The replaceable tip is ground to three diameters: .045", .060" and .093".

Wire Range:
.014" - .020" Round
.022" x .028" Rectangular

Cinch Back Plier

This plier is made with the optimum angle for working behind the buccal tube. Tips are serrated for a firm grip making it easy to grab the wire for turning away from the cheek or activation.

Wire Range:
.012" - .020" Round
.016" x .022" Rectangular

Lingual Arch Forming Plier

Jaws of plier have four grooves placed and sized for all different sizes of large wires. Ideal for forming double back and triple back bends.

Wire Range:
.020" - .036" Round
.022" x .028" Rectangular

Nance Loop Forming Plier

This plier has four distinct steps for precise loop forming every time. Serrated tips prevent wire slippage and are ground for forming 3, 4, 5, and 6 mm loops consistently.

Wire Range:
.014" - .020" Round
.022" x .028" Rectangular
